**THE SOFT BAIT THAT STAYS SOFT!**

### EXUDE FANTAIL SHRIMP

EXUDE soft baits that release a slime coat of 50,000 parts per million of stimulants and scent base on contact with water. Designed to remain soft even when dry, No need to recharge the bait in its packet.

COLOURS AVAILABLE:  
LUMO/CHARTREUSE,  
LUMINESCENT,  
NEW PENNY,  
MEASLES

Saltwater use only.  
NOT LEGAL FOR  
USE IN FRESHWATER.

The Exude 2½" Fan Tail Shrimp from Mister Twister presents a small profile while sporting lots of leg action. Its fan tail also "flips" during presentation to imitate the natural swimming action of a live shrimp. Rig it on a Mister Twister Saltwater Jighead and, depending on the speed of your retrieve, you will be able to fish it at virtually any depth.

### EXUDE RT SLUG

Features a chunky body with an undercut slot that hides the hook, making it weedless. Its thin-bodied larger profile makes it lighter and more realistic. It also makes it easier to set the hook. Use a slow jerky retrieve. Its frantic darting and gliding motion simulates an injured shad. The Exude formulation delivers a fleshy real feel that tastes natural to saltwater game fish.

### EXUDE CAJUN CRAB

Designed to imitate a baby crab, as it is the natural prey for a wide variety of saltwater game fish. Rigged on a jighead or with a single hook, this little creature swims sideways, duplicating the escape tactics of a crab.

### EXUDE CURLY TAIL

One of the most effective fishing lures ever. Invented more than 25 years ago. Now, grub fishing has gotten better with the Exude Curly Tail Grub. Rig it to a jighead with just enough weight to get you down to where you want to fish. Then, fish it with a slow, steady twitch. This is one Exude product that truly will catch just about anything that swims.

### EXUDE SANDWORM

COLOURS AVAILABLE: CAMOUFLAGE,  
PUMPKIN PEPPER, MOTOR OIL,  
MOTOROIL/RD FLK

At a full 8" long, the Sandworm provides a life-like profile and plenty of action. The exclusive Exude formula means the Sandworm begins releasing a scent trail as soon as it hits the water. It also gives the Sandworm a fleshy, real feel that tastes natural.

## MISTER TWISTER - THE ORIGINAL SOFT BAIT LURE!

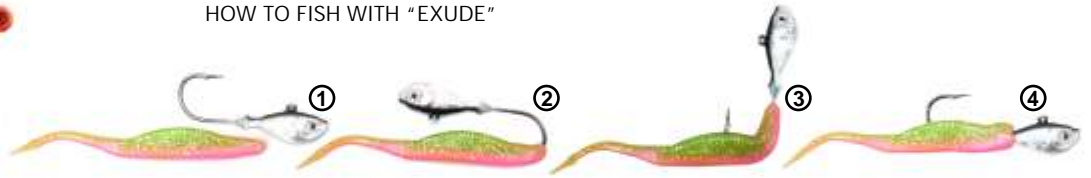

Unlike similar products on the market Mister Twister EXUDE soft baits don't dry out and don't need to be recharged. Made from protein, plus natural minerals and amino acids found to be most effective in stimulating carnivorous fish to feed. THESE ARE FISH FOOD! EXUDE releases 50,000 parts per million of stimulants and scent base, as a "slime coat" once in contact with water. Most fish species have a highly tuned sense of taste and smell that allows them to detect very small amounts of water soluble stimulants released by their prey. In general this equates to 2.5 parts per million.

### EXUDE IS A SCENT AND STIMULANT EXPLOSION!

EXUDE has a soft, natural texture that not only exudes a slime coat that leaves a scent trail but also allows each lure to swim with an action that entices fish to strike. Take your EXUDE soft bait out of the water and let it dry out, it will remain as soft and supple as if it were straight out of the pack for the first time. The proprietary EXUDE scent is released as soon as the lure is in the water. It is built into the lure so there is no need to recharge it in its packet. Check out the slime coat on an EXUDE lure after it has been in the water. There is nothing, other than the real thing, that is more natural! EXUDE is a dramatic innovation for saltwater fishing. It triggers feeding responses and is "The Next Generation Soft Bait". EXUDE CATCHES MORE FISH MORE OFTEN!

### HOW TO FISH WITH "EXUDE"

5" RT SLUG Fish this lure with a short, jerky retrieve where its frantic darting and gliding motion simulates an injured baitfish. RT Slug can be fished near the surface or allowed to slowly sink when rigged with a 5/0 offset weightless hook. Rigged with a WAHOO jig head you can fish nearly any depth, or with an "Eagle Claw R-Bend hook" ON 2-4TH JUNE 2007 AN RT SLUG "BUBBLE GUM ICE" WON THE INAUGURAL ZANE GREY KAYAK CONTEST, A 7.65KG SNAPPER!!

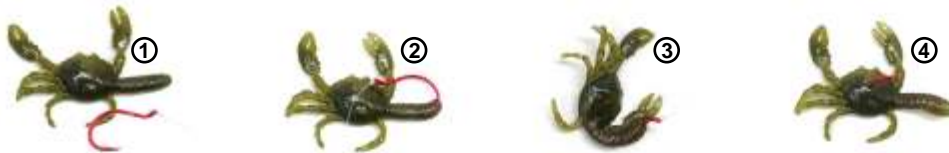

### MISTER TWISTER "EXUDE" SOFT BAITS THAT STAY SOFT

8" SANDWORM Imitates one of the favorite foods of a wide variety of fish species found around the New Zealand coast but rarely fished as a natural bait by anglers. Full 8" (20cm) long, with flexible "legs" along both sides of the entire body, to simulate the action of a real worm. Realistic and life like profile and superb natural colours. Fish these down on the bottom where the worm beds are on either a WAHOO Jig head or with tandem rigged "Eagle Claw R-Bend hooks" trailing trace form a swivel sinker. Fish slow and use the rod tip to make the lure kick up a puff of sand every now and then. Keep the lure on or near the bottom for best results - AND HANG ON!

4" CURLY TAIL GRUB Based on one of the most effective soft bait lure patterns ever developed this lure has been catching fish of all species around the world for over 25 years. Rig with a WAHOO jig head that has just enough weight to get you down to where the fish are holding and then fish the Curly Tail Grub with a slow steady "twitch retrieve". The combination of the natural feel tough ridged body and the fish enticing action of the sinuous tail give you a lure that is PERFECT FOR ALMOST ANYTHING THAT SWIMS! And remember this lure wont dry out and loose its action!

2" CAJUN CRAB Designed to imitate a baby crab, the natural prey for a wide variety of saltwater fish species and available in a colour range to cover most of the crabs that inhabit New Zealand's coastline. Rig these on a WAHOO jig head or a single circle hook through the extra wide leg and they will swim sideways, scuttling over the ocean floor and duplicating the escape tactics of a crab. Fish them with a slow retrieve on a surf beach or rig them in tandem with an EXUDE Sandworm when boat fishing. Open your mind to their potential and BE PREPARED TO CATCH SOME XOS FISH ON THESE.

Wahoo Jig Heads feature Premium extra-sharp Mustad forged hook in black pearl finish. Durable chip-resistant finish. Attachment ring set back on head to provide quick drop and better action for deeper water. Reinforced hook shank. 3D holographic eyes.

3 COLOURS:- Natural Shad, Red Head, White X-Glo(glow In The Dark).

4 SIZES:- 1oz, 2oz, 1/2oz & 1/4 oz

SELECTED & TESTED FOR NEW ZEALAND FISHING CONDITIONS. TACKLE

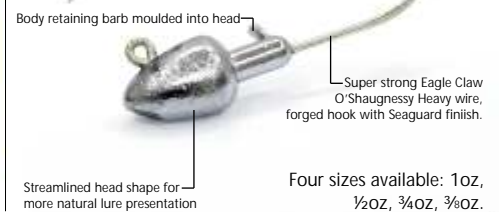

1 size 1/4oz, 2 colours black or chartreuse

### EXUDE SALTWATER JIG HEADS

Finally there is a saltwater jig head that works perfectly with Exude lures. Available in 1/4 oz. Feature a strong coated hook for maximum corrosion resistance. In addition, three "ribs" hold your lure securely in place under almost any fishing condition. Each size is engineered with an enhanced swimming action, and all feature a large prism eye.

### KILWELL JIG HEADS

Four sizes available: 1oz, 1/2oz, 3/4oz, 3/8oz.
